Dear Ma'am,

Please find the Revised Process Flow as per your updated Process Flow Document of TRF Module in the below attachments.

Completing all the above steps will take **atleast 90** Hours in **development**.

Please provide your **approval** to start these task.

Dear Praveen,

The overall flow is perfect as per our discussion. The points to be included are as follows :-

(a) TRF - While creating the TRF one provision will be provided to customer from where he can upload any document if required. i.e. STP, PO etc.

(b) The uploaded documents (PO,STP,TRF) can be accessed by the user as per their role.
Example :- Invoicer can view ,download or take printout of PO as per his requirement, Analyst can view STP. The access of these documents will restricted to role by the administrator.

(c) Format of TRF and criteria of creation :- I will discuss with Antaryami Sir and update you tomorrow.

(d) Provision of emailing of TRF from web portal - Manual as well as automatic as discussed. I will update tomorrow after discussion.

(e) Edition & Deletion of TRF by customer after filling- I will update tomorrow after discussion.

With Regards,
Deepika Sharma

Dear Ma'am,

Please find the Process Flow of TRF Module in the below attachment.

If you find any correction in the above process flow detail, please add it.

Please check it , provide your feedback and approval for the Estimation.
